

ACUPUNCTURE'S ROLE IN CANCER CARE

Presented by Heather Krebsbach, ND, L.Ac
with Inner Gate Health & Wellness

Acupuncture can help manage symptoms associated with chemotherapy, radiation and post-surgical recovery. It can help with symptoms such as fatigue, nausea, numbness, pain and hot flashes.

Join us to learn more about acupuncture and how it can help stimulate the body's natural repair process during or after cancer care. Time for questions will follow.

When: Monday, Feb. 10
5:00 p.m. – 6:00 p.m.

Location: Virtual event. Pre-registration is required.

Registration: Free event. Open to anyone with a cancer diagnosis. Register today by scanning the QR code or visit **legacyhealth.org/cancerclasses**.
