

# Legacy Health

## Therapeutic Garden at Legacy Salmon Creek Medical Center Sustainable Design

Did you know that all of Legacy's Therapeutic Gardens are designed with environmental sustainability in mind?

-  Organic and safe methods used in garden maintenance
-  Use native, drought tolerant plants
-  Neonicotinoid-free plants to avoid harm to insects
-  Water-efficient drip irrigation used where needed
-  Plant many plants to encourage pollinators to visit and work
-  Environmentally friendly techniques used to avoid and treat pest issues
-  Educational signage
-  Audubon approved bird houses made of recycled, repurposed materials
-  Year-round events hosted in gardens emphasizing benefits of gardens and green spaces, good health and environmental stewardship
-  National Wildlife Federation certification  
<https://www.nwf.org/Garden-for-Wildlife/Certify>
-  Energy efficient and Dark Sky compliant site lighting
-  Designed in accordance with Sustainable Sites Initiative principles  
[\(https://www.asla.org/sites/\)](https://www.asla.org/sites/)
-  Inspiration for creating your own healthy environments
