

## Amounts Generally Billed Calculation

Legacy Health and its affiliated hospitals use the look-back method to determine the amounts generally billed to individuals who have insurance covering emergency or other medically necessary care (AGB). The AGB percentage, effective April 1, 2022, for each of our hospital facilities are listed below.

The AGB percentages were calculated using all claims allowed by both private pay insurers, including Medicare Advantage and traditional Medicare, for inpatient and outpatient services from April 1, 2021 through December 31, 2021. Total expected payment from allowed claims was divided by the total billed charges for the same claims. The AGB percentages will be updated annually.

Patients determined to be eligible for financial assistance will not be charged more than AGB for emergency or other medically necessary care. Eligible patients with insurance coverage will not be personally responsible to pay more than AGB after all payments by the health insurer have been applied.
